    - *Saginaw and Tuscola counties will begin to carry O-Negative (O-) blood on ambulances to reduce fatality rates beginning May 23<sup>rd</sup>. There were 24 cases in 2024 that would have benefitted from access to blood before getting to the hospital. There will be no negative impact on this change. While there is an issue with blood shortage, it was discovered that 30% less blood is used while en route verses the patient receiving it when they get to the hospital. Blood drives have been increased to four times a year, the next one will be at MMR's new location, 4855 State Street in Saginaw's "Gold Building" on June 24<sup>th</sup> from 10:00 a.m. until 4:00 p.m.*
